Forrestville Valley School District #221

May 1, 2018

Dear Parents or Guardians;

The **Illinois School Code** requires students to meet various requirements at certain grade levels. Please use this letter as a guide to the requirements your child needs to fulfill for school enrollment in the fall.

Preschool: Completed Illinois Physical Exam form (when first entering preschool), including physician verification of having received all required immunizations including: varicella and pneumococcal vaccines.

Kindergarten: Completed Illinois Physical Exam form including physician verification of having received all required immunizations including two doses of varicella vaccine. A completed professional eye examination and completed dental form

2nd Grade: Completed dental form.

6th Grade: Completed Illinois Physical Exam form including physician verification of having received all required immunizations including: a Td booster, Meningitis vaccine, and 2 doses of varicella vaccinations. A completed dental form.

9th Grade: Completed Illinois Physical Exam form including physician verification of having received all required immunizations including: a Td booster and one dose of Meningitis vaccine.

12th Grade: Proof of 2 Meningitis vaccinations, unless 1st dose was after 16 years of age.

Students first entering a school in Illinois from out of state are required to complete: a physical exam, professional eye examination and dental exam, all documented on Illinois forms.

Completed Dental forms are to be on file by May 15th. Students must have been seen by a dentist in the previous 18 months of the deadline to complete the requirement.

If you object to this process for health reasons, a physician's statement is needed stating the required immunizations are detrimental to the health of the child. Objections to vaccinations due to religious beliefs must be submitted in writing stating supporting biblical scripture with references and parent signatures. Also, an Illinois Certificate of Religious Exemption must be completed and signed by parents and a MD, DO, APN or PA. The district is required to comply with state requirements when enrolling students into school. If the requirements stated above are incomplete as of October 15th, students will be dismissed from school until they can be completed.

If you have any questions, please leave me a message with a building secretary and I will return your call.

Sincerely,

Jennifer Nelson RN

Eye Examination Report

Illinois law requires that proof of an eye examination by an optometrist or physician (such as an ophthalmologist) who provides eye examinations be submitted to the school no later than October 15 of the year the child is first enrolled or as required by the school for other children. The examination must be completed within one year prior to the first day of the school year the child enters the Illinois school system for the first time. The parent of any child who is unable to obtain an examination must submit a waiver form to the school.
